

# Alaska Department of Labor and Workforce Development (DOL) Jurisdiction Claim Number (JCN) Assignment Overview

The following information provides the Jurisdiction Claim Number (JCN) DN0005 assignment in Alaska.

## Production Claims

**Format:** 4 digit year (based on fiscal year) followed by a unique 5 digit number padded with zeros.

Test Production Code DN0104 in the Header Record is 'P'.

### Initial Assignment on Production date February 12, 2012

Alaska will assign the JCN as follows on the production date in February 2012:

- The first JCN assigned will start with 201210000 and be incremented for each new claim assignment until the 'RESET' occurs.

Note: Alaska may need to adjust the first number upward based on the February Go Live date.

**RESET:** Each Calendar Year starting January 1:

- Alaska will reset DN0005 Jurisdiction Claim Number (JCN) every January 1 starting with the first file processed on that day.

Note: This is based on the Date Transmission Received of the claim not on Date of Injury or any other field.

### Examples:

- <Production date> to December 31, 2012 the JCN will start with 201210000
- January 1 2013 to December 31, 2013 the JCN will start with 201300001
- January 1 2014 to December 31, 2014 the JCN will start with 201400001

## Test Claims

**Format:** 4 digit year (based on fiscal year) followed 'T' followed by a unique 5 digit number padded with zeros.

(CCYYT##### a 'T' will be inserted after CCYY and before 5 digits starting with 00001.)

Test Production Code DN0104 in the header is 'T':

### Initial Assignment on Test date

Alaska will assign the JCN as follows on the test claims:

- The first JCN assigned will start with 2011T00001 and be incremented for each new claim assignment.

**RESET:** The JCN will be reset January 1, 2012:

- Alaska will reset DN0005 Jurisdiction Claim Number (JCN) on January 1, 2012 starting with the first file processed on that day.

Note: This is based on the Date Transmission Received of the claim not on Date of Injury or any other field.

### Examples:

- <Test date in 2011> to December 31, 2011 the JCN will start with 2011T00001
- January 1 2012 to Production Status in 2012 the JCN will start with 2012T00001
