July 18, 2011

Dear Sir or Madame:

RE: Alaska Workers' Compensation Filing Changes

The State of Alaska, Division of Workers' Compensation will be implementing electronic reporting of workers' compensation first reports of injury (FROI) and subsequent reports of injury (SROI) - commonly referred to as compensation reports. EDI reporting will be required for all trading partners (insurers, self-insured employers, and claims administrators). Mandatory implementation is planned for February 2012.

Electronic reporting will be via EDI transmission, using the Claims 3.0 reporting standards adopted by the International Association of Industrial Accident Boards and Commissions (IAIABC). Additional information can be found online at the IAIABC website, <http://www.iaabc.org>.

The State of Alaska has contracted with Insurance Services Office, Inc. (ISO) to manage its FROI/SROI reporting. ISO will be administering registration of trading partners, testing, and data collection and submission of EDI data to the State. Registration and testing will be available beginning August 1, 2011. Additional information can be found online at <http://www.adoledi.info>.

If you have any questions or concerns regarding implementation of EDI FROI/SROI reporting in Alaska, please contact ISO at adoledi@iso.com.

Sincerely,

Michael P. Monagle,
Director
